 Cleveland, QLD 4163  [jordanaston.io](https://jordanaston.io)

## Summary

- Emerging software developer proficient in developing dynamic web applications throughout all stages of the project lifecycle.
- Comprehensive knowledge of modern development tools and languages, coupled with the ability to write clean, efficient, and maintainable code.
- Strong aptitude for embracing new technologies and an inherent knack for problem-solving.
- Ability to collaborate within a team environment and contribute to a culture of shared ideas and constructive feedback.

## Work Experience

### Technical Advisor

Concentrix 2022 - 2022

- Delivered technical support for software and hardware issues related to iOS, MacOS, and media services. Managed customer inquiries and coordinated repair appointments while upholding stringent data accuracy and security standards.

### Audio Visual Technician

Select Audio Visual 2020 - 2021

- Operated audio and lighting systems using a broad range of AV equipment including mixing consoles, PA systems, computers, cameras and radio gear to ensure seamless, professional event productions.

### Brand Ambassador

Crumpler 2018 - 2021

- Managed in-store promotions, customer service, phone liaison for repairs and sales, and visual merchandising for Crumpler products. Collaborated effectively with a diverse team, fostering a positive work environment and contributing to shared objectives for sales targets and customer satisfaction.

## Key Projects

### Weather Forecast App - Deployed Site ↗

- A real-time, geo-responsive weather app using the OpenWeatherMap API, built with React and Tailwind.
- Hourly/daily forecasts, current conditions, unit switching, and key data including humidity, sunrise/sunset times.

### Vinyl Data API Web Server - Github Repo ↗

- A RESTful API web server built with Flask and PostgreSQL, for managing and cataloguing vinyl record collections.
- Full CRUD capabilities, providing users access to album details and track specifics such as tempo, key, and RPM.

## Skills and Abilities

### Tech Stack

- HTML | CSS | Javascript
- MongoDB | Express.js | React | Node.js
